We are aligning toward measurable targets

1100+ properties
300+ owners/managers
300+ community stakeholders

With over 34 million square feet of commercial building space, the Michigan 2030 Districts are rapidly emerging as a new model for urban sustainability in the State.

Join a national network of Districts in North America

The private sector leads the way towards carbon reduction goals. Through District membership, professional stakeholders have opportunities to:

- Reach an engaged audience of developers, property owners and property managers as they assess efficiency upgrades for their properties.
- Gain access to the most up-to-date information regarding potential new and renovation projects within the 2030 District.
- Provide guidance and influence for permitting and policy updates that lead to a carbon free building stock that are considered to incentivize 2030 Challenge projects.
